Dear Dr. Costello,

I am forwarding a short report of my observations for your records regarding the case of a patient of mine that I have worked closely with for the past fifteen months.

Jim Black has suffered from an undiagnosed autoimmune or organ dysfunction disease which displayed many of the same symptoms we would find in Multiple Sclerosis, Fibromyalgia and Chronic Fatigue Syndrome, all of which had become apparent by November 2004. He was being treated by conventional Western medicine in addition to alternative therapies. I have treated him with acupuncture and herbal medicines for the condition since March 2003 with no improvement beyond short relief during and briefly after his acupuncture treatments. I am writing you to bring this case to your attention because of the miraculous turn around in his symptoms he has experienced since meeting an East Indian gentleman named Guru Ji in early April of this year. My patient, Jim Black, has seen a complete reversal of all symptoms of his disease since receiving a series of blessings from Guru Ji.

I have attached a summary of my experience with Mr. Black's case for your consideration as well as testimonials written by both Mr. Jim Black and his wife Ms. Kim Black. Also, please find contact information on the attached page in the event that you would like to contact myself, Jim or Kim regarding these reports. I have also forwarded a copy of this report to our mutual colleague, Harold Finkleman. I believe you have had several discussions with both Harold and Dr. Lori Croteau regarding Guru Ji's work earlier.

Respectfully,

Dr. David Chu D.Ac., T.C.M.D
